## Killing Floor: Steampunk Character Pack Download Uptodown

Download ->>>>>> <http://bit.ly/2QTK5DG>

### About This Content

The Victorian era was never so fun and deadly. The Steampunk Character Pack adds 4 more new and unique playable characters for Killing Floor as Downloadable Content. Once you have bought the pack, they will become selectable in the character selection screen in-game.

### Reggie "Basher" Clover

Big, angry and fast, Reggie's always been driven by an overpowering need to dish out pain and suffering in equal measure, which is why his old career in the police force arguably wasn't an ideal fit. When chaos erupted on the streets of London, courtesy of Horzine's army of freaks, Reggie binned his uniform, strapped on some home-made armor and got to work cleaning up the world one mutant at a time.

---

## Adam Butler

The purifying power of flame has long fascinated Adam, a quirk that drove him in and out of foster homes and eventually every prison north of the Thames. But his passion never waned and, while feeding his hunger, Adam refined his skills and forged a reputation as the world's foremost pyromaniac for hire. The Horzine disaster drew our hero homeward and now Adam finds himself on the streets of London dishing out his own unique brand of fiery pain for free.

## Doctor Dave

No one thought David would make a good doctor, which is why he was rejected by every medical school in the country. Imagine his surprise and delight when the Horzine mutant problem erupted, allowing any lunatic with a scalpel and some bandages to call themselves a medic. David now roams the streets, helping the wounded and vanquishing the undead – though sometimes he gets the two a bit mixed up.

## Peter the Assassin

Descended from a long line of aristocratic assassins, Peter's weapon of choice has always been the sniper rifle. Deadly, arrogant and easily bored, Peter sees the Horzine outbreak as the ultimate chance to test himself against the worst science has to throw at mankind. Now Peter seeks out Horzine mutants, eager to wage war against an enemy he fears too numerous even for one of his prodigious skills.

**Sound:** DX 8.1 Compatible Audio

English

---

Starring Al Jourgensen as Doctor Dave. Buy this game, or get your choice.

Reggie the Raging Bull Berserker

Adam the Flaming Pyrotechnic Firebug

Dave the Healing Doctor Field Medic

Peter the experienced Assassin Sharpshooter

This character pack is at least better than 2 but in the second Scully looks badass.

11/10 would recommend this pack.

. Pretty good quality steampunky characters.

Each are tailored after a class in the game, so you'll have something for everything you play.. Pretty good quality steampunky characters.

Each are tailored after a class in the game, so you'll have something for everything you play.. Typical add-on pack. Expands your game, nothing wrong with that. Some will use some will not. Great game though. Better than the 2nd game. Its clear what you're getting, Over priced DLC of course, like most, but frequently on sale. Worth it then.

---

Its good, just buy it. Easily the best of the 2 Steampunk character packs, while the other had an awesome Steampunk demo, Skully and Support, the commando looked ugly as hell and unfitting.

However here all 4 characters are very soild and well designed, my favorite being Firebug.

Overall great character pack.. I have bought this for **Tripwire Interactive who made this awesome game 'Killing Floor! :Dosh:**

**If you like this game, buy this DLC for support :Dosh: the 'Tripwire Interactive' and the 'Killing Floor'. :Dosh: Sincerely, @Atlaimond [HUN] :spacepony:. Decent. I like the guy with the tophat, you're mostly just buying this to support the game though. :P. Its good, just buy it. I got this DLC in the complete pack. All off them suffer from the same flaws so this review is copied to all of them.**

Now. The skins and weapons are totally fine. The problem here is the extreme pricing and the fact that this game has a modding community with better, free, stuff. They even admit that a lot of this is made by said community. I as a console peasant and a sucker did not get this simple fact and pronounced \u201cYes! I do want to pay more!\u201d.

Don\u2019t be like me. Don\u2019t suck, blow\u2026 wait, what?. \u00d3tima DLC com personagem muito louco, muito punk realmente.

Pr\u00f3s:

- Muito bom os personagem e sua anima\u00e7\u00e5es.

Contras:

-- nada at\u00e9 o momento --

Nota: 7/10

Isso \u00e9 uma an\u00e1lise critica feita por mim e n\u00e3o por um profissional, n\u00e3o reclame! (\u00c9 MINHA OPINI\u00c3O). Easily the best of the 2 Steampunk character packs, while the other had an awesome Steampunk demo, Skully and Support, the commando looked ugly as hell and unfitting.

However here all 4 characters are very soild and well designed, my favorite being Firebug.

Overall great character pack.. Reggie the Raging Bull Berserker

Adam the Flaming Pyrotechnic Firebug

Dave the Healing Doctor Field Medic

Peter the experienced Assassin Sharpshooter

This character pack is at least better than 2 but in the second Scully looks badass.

11/10 would recommend this pack.
